SUMMARY

I'm an Information System student with a strong passion for programming, I possess excellent time management and organizational skills. My expertise in Software Engineering, Web Development, Frontend Development, and UI Design makes me a versatile candidate. I have a growth mindset and am always eager to learn and gain more experience. With the ability to handle multiple tasks in a fast-paced environment, I am a responsible, reliable, and friendly person. My natural curiosity drives me to continuously seek new knowledge and experience. I enjoy collaborating in teams and sharing my learnings with others. I am an ambitious and hard-working individual with innovative ideas and strong leadership skills. I view life as a journey of growth, adventure, and embrace every opportunity for learning and exploration.
